The activities in the village over the summer with the 2 Northern Irish teams really gave us a good foundation to start our youth football programs. We want to start properly in October but over the past couple of months, pastor Youssouph and I have tried to be there every Wednesday to play some games and keep the momentum going! There has been a lot of rain and it's been nice to see the grass grow so much! It has been great to start getting to know the kids better and they always seem very excited to come out! We have had a fairly consistent group of about 40 which has been good including 7 or 8 girls.

A young man who lives in the village has joined us most weeks. He seems keen to get involved and has been very helpful. He is not a believer and so we would appreciate your prayers for him. It is often hard to get any coaching qualifications here in Senegal, especially for those from villages like Sanghe who don't have much money. One of the things we want to do is to help train local coaches and use that as a means of getting to know them better ultimately with a view to sharing our faith. We are thankful that God has brought this young man along to us and pray that through our interactions and conversations we will be able to point him to Jesus. Pray for all the preparations for starting in October and also that Jesus would be made known in and through all we do!

## *The LORD your God is with you, the Mighty Warrior who saves. Zephaniah 3 v 17*

This verse is a great reminder that even in a foreign land where it often seems like the enemy has so much power over the lives of the people, our God is with us and He is a Mighty Warrior who saves. Although we can often get discouraged, we know that He is sovereign and is working out His purposes and building His church. Thanks so much for your prayers and support for us and the work we do here, and continue to pray that our Mighty Warrior would save the people of Sanghe village and many more across Senegal.

The kids have started their new school (Dakar Academy South Campus), have settled well and are really enjoying it. Thanks for your prayers for them and for Micah, still at home with Mummy!

Above is a picture of our local market here in Sindia. We are able to get most of our fruit and veg here and then do a bigger shop every 2 or 3 weeks when we go to the supermarket which is around 30mins drive away.

**Please pray that we would be able to find a suitable French language teacher for Kyla and that she would continue to make progress!**

**AMBASSADORS**  
F O O T B A L L

Thank you so much for your interest, encouragement and financial support for the ministry God has called us to. We don't take this for granted and appreciate you taking the time in the midst of the busyness of life to support us and be part of what God is doing in Senegal.

## Thank you!
